ABOUT US

Established in 2007, Power Tech Group Company is one of the largest and leading manpower service providers in Middle east countries. We have presence in 6 countries spanning all across Middle East Countries and manned by 500 Technicians / Engineers.

We are an ISO-9001:2015 certified & OHSAS: 18001:2007 Company for establishing Quality Service as per the customer's needs and satisfaction with the help of our technically sound, experienced team.

Our Company is managed by a dedicated team of professionals having rich experience and have put in decades of dedication in managerial positions in Power Plant, Desalination plant and Refinery.

It is headed by the managing director who was the former engineer in Ministry of electricity and Hidd Power Company with 35 years of experience with multinationals and in major industries in GCC.

The key drivers to our success is our own "Chennai Power and Desalination Training Institute" which is approved by Government of India. We provide in-house training for Power Plants, EHS, Permit Systems and regular tool box talks. We provide highest standards of training and services to the employees and customers.

OUR MISSION

We will build a strong partnership with our customers by delivering effective solutions through our team of empowered and committed individuals, whose behavior and decision making are shaped by our core values.

OUR VISION

To provide high quality services that combine high performance with profitable workforce, we aspire to be a successful in Bahrain, UAE, Kuwait, Qatar, Oman, KSA and India.

OUR CORE VALUES

- ✓ Maintain high standards of EHS to ensure accident-free work place.
- ✓ Periodical RFCA to ensure reliability of the equipments.
- ✓ High standard of facilities for employees
- ✓ Total Quality & Safety

COMPANY'S PROFILE

Our company is specialized in supplying of professionally trained, skilled and quality manpower in Middle East countries for the following Industries.

- ✓ Power Plant,
- ✓ Desalination Plant and
- ✓ Refinery utilities plant

We have well-equipped training institute in Chennai, India in the name of CHENNAI POWER AND DESALINATION TRAINING INSTITUTE also called as CPDTI (Approved by Central Electricity Authority of India, Under the Ministry of Power, Government of India - Approval No.F.No.12/23/2015- T & R). The main function of CPDTI is to train fresh and experienced Engineering graduates and Diploma holders in the job related fields like

Steam turbine maintenance, Gas Turbine maintenance, Desalination plant Operation and Maintenance, etc. We also give training to our engineers on Safety issues and Permit systems.
